

# ALL-IN-ONE SAFETY

## More than a lease program

Our new *All-in-One Safety* three-year lease program provides everything required to deploy the most sophisticated safety monitoring system in the least amount of time and in the most affordable fashion.

## Affordable

Adopting lone worker safety technology has never been easier. With no up-front fees, *All-in-One Safety* delivers our Loner monitoring technology as a service program with an affordable monthly fee

As an operational lease, *All-in-One Safety* can be recorded as an operations expense, not touching capital purchase budgets. Starting at just \$2 per day per employee, safety monitoring has never been so accessible.

## Comprehensive

*All-in-One Safety* includes everything you need for a complete work alone safety monitoring program.

- Best-in-class monitoring equipment with no upfront fees
- Blackridge's 24/7/365 *First Responder* Monitoring Service
- Consulting and employee training
- Full three-year warranty coverage for the duration of the program
- Product replacement budget for lost or damaged Loner devices, up to 20% of Loner complete commitment
- New Loner equipment with *All-in-One Safety* service renewal after 36 months
