

Key Features & Benefits:

-  **Real-Time GPS Tracking:** Respond quicker and provide better service with full real-time visibility of your fleet.
-  **Fuel & Diagnostics:** Pull engine hours & odometer readings; diagnose faults remotely and manage powerful reports/alerts for PTO, fuel, temperature, pressure & more to prevent downtime.
-  **In-Vehicle Audible Safety Alerts:** Coaching for drivers to self-correct harsh driving, excess idling and speeding habits; resulting in significant fuel & safety savings.
-  **Messaging & Dispatching:** Safe, affordable & effective to streamline your operations. Plan, optimize, & dispatch routes; drivers can message, change status & mark jobs complete.
-  **Plug & Play Install:** Quick & easy installation done yourself to avoid installation fees.
-  **HOS/DVIR:** Simple, affordable & powerful solutions that allows drivers to perform HOS Logs & DVIR easily through their Smart-Phone or Tablet.

Fleet Starter \$30/month

- ✓ Real-Time GPS Tracking (60 seconds)
- ✓ Posted Road Speed Notifications
- ✓ Simple Plug-Connect Installation
- ✓ Powerful Business Exception Rules
- ✓ Customer Import and Route Reports
- ✓ Email/web popup to notify on rule violation in real-time
- ✓ Out/in zone Geofence Exceptions
- ✓ Dispatch closest to address
- ✓ Increase Operation Efficiency
- ✓ Idling Time & Cost Fuel Savings Report

Fleet Specialist \$35/month

MOST POPULAR!

- ✓ **All Fleet Starter Features**
- ✓ In-Vehicle Audible Driver Coaching
- ✓ Fuel Usage: Idle Fuel & Fuel Fill
- ✓ Vehicle Fault Diagnostics
- ✓ IFTA Fuel Tax Reporting
- ✓ Accident Reconstruction Report
- ✓ Actual Engine Hours & Odometer from Vehicle ECM
- ✓ Maintenance Reminders
- ✓ Driver Scorecard (including seatbelt, harsh braking, hard acceleration, speeding, etc.)
- ✓ Reduced Liability & Insurance Costs

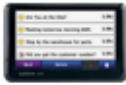

Fleet Compliance \$40/month

- ✓ **All Starter & Specialist Features**
- ✓ Active Live Tracking (no delay)
- ✓ Garmin Dispatch & Messaging
- ✓ Lifetime Warranty
- ✓ Driver App for Hours of Service (US, Canada, Oil & Gas,...)
- ✓ Driver App for Vehicle Inspection Reporting (DVIR)
- + SDK/API for Software Integration & Customization
- + Fleet App Extensions (Eg. Route Optimization, Plow/Salter/Sander Integration, Temperature Monitoring, Truckmate, Maintenance CMMS, WO Management System, etc.)
